WHEREAS, pursuant to N.J.S.A. 40:48-2, the governing body of a municipality may make, amend, repeal, and enforce such other ordinances, regulations, rules and by-laws not contrary to the laws of this State or of the United States, as it may deem necessary and proper for the good of government, order and protection of person and property, and for the preservation of the public health, safety and welfare of the municipality and its inhabitants, and as may be necessary to carry into effect the powers and duties conferred and imposed by this subtitle, or by any law; and

WHEREAS, the previous State legislation formerly codified at N.J.S.A. 26:3D-41, which prohibited municipalities from passing strict local smoking laws that differed from the State standards was repealed and the State now expressly authorizes municipalities to enact strict ordinances regulating smoking under N.J.S.A. 26:3D-63; and

WHEREAS, as additional basis for the City's authority to enact smoking laws to govern parks and recreational areas, it may be noted that the City is the owner and operator of numerous public sites, and that the statutes provide that smoking or carrying lighted tobacco may be prohibited by the owner and/or operator of a public place, such as public parks and recreational areas, N.J.S.A. 2C:33-13b; and

WHEREAS, N.J.S.A. 8:6-2.3a allows municipalities to create buffer zones by buildings that are smoke free; and

WHEREAS, it is in the interest of the City of Newark to refer to those areas as Smoke Free Zones; and

WHEREAS, the Municipal Council of the City of Newark recognizes the well-known health and safety risks posed by smoking and finds that it is within the public interest to prohibit smoking in public buildings and on public property, such as public parks, recreation areas and vehicles; and

WHEREAS, the Municipal Council of the City of Newark finds that it is in the public interest to protect impressionable children from the temptations of experimenting with cigarettes and other tobacco products, especially in public places where children are likely to congregate, gather, play and/or engage in athletic competition; and

WHEREAS, the Municipal Council of the City of Newark also finds that the appearance of parks and recreation areas can be enhanced and the limited resources of the City's Department of Neighborhood and Recreational Services can be conserved if smoking were to be banned from such areas, thereby keeping such areas free of the litter typically generated by the smoking of cigarettes, such as cigarette butts, ashes and packaging.
