l. Section 8-Q "Sustainability Standards" shall be added as follows:

The following standards shall apply for building over eight (8) stories in the Mixed Use 2 and Mixed Use 3 Districts:

a. Provide open spaces (greens, squares, plazas, courts and pocket parks/playgrounds) equal to 10% of the total lot area with public access directly from the sidewalk at ground level or from the public right of way. Required open public access for river frontage (Chapter 7) satisfies and takes precedent over this requirement. Priority shall be given to establishing connections to Riverfront Park, transit hubs, and other existing greenways and public spaces. Open space must meet landscaping and other design requirements as listed in this ordinance.

b. Provide a green roof equal to 50% or more of the total usable roof area including both principal and accessory structures.

c. Provide a living wall or green wall equal to 300 Sq. Ft. or more.

d. Install an appropriate gray water recycling system so that onsite gray water is reused for landscaping maintenance and other non-potable systems.

e. Incorporate additional on-site stormwater management measures and Low Impact Development (LID) strategies, that reduces stormwater flow generated from proposed development, including all proposed graded and fill

areas, by 50% or greater. The plans must provide calculations showing stormwater runoff rates of development with the new stormwater management measures and without them.

- f. All new electrical or electronic appliances provided by the developer, owner or management Company shall meet Energy Star compliant requirements.
- g. Smart building controls such as programmable thermostats and lighting, occupancy sensors, and other measures shall be utilized to maximize energy efficiency.
- h. Permeable pavement or pavers shall be utilized for on-site hardscaped areas.
